PRESS RELEASE

May 20, 2026

New York State Department of Transportation will be continuing construction on the I-86 corridor this summer, continuing west bound from the work completed in Apalachin last year.

For the 2026 construction season the project will commence with construction on the Exit 65 west bound off ramp beginning Wednesday May 27th, causing the ramp to be closed and once the required work has been completed in that area, exit 65 west bound on ramp will be closed for the required work in that area.

Upon completing the west bound construction, the process will be repeated at exit 65 east bound, with an estimated time frame of September 2026 for that work to commence.

During construction detours will be posted at exits 64 and 66 providing travelers with direction and routes of travel. As the construction progresses the Town of Owego will provide further updates as we receive them.

Respectfully,

Town of Owego Supervisor
